Objectives - Curriculum committee

To involve in curriculum planning to continue the development and implementation of a high quality curriculum

To make Pharmacy college recognized as a centre of excellence India for its educational programs by promoting innovations in the curriculum

To develop, implement and monitor programs for curriculum evaluation

To develop methodology to evaluate the quality of teaching

To facilitate access to external experts and expertise on pharmacy education

To develop and implement innovative approaches of teaching methodologies

To organize and evaluate programs of continuing pharmacy education and continuing professional development for faculty

To identify the needs of faculty in the areas of teaching, course and curriculum planning, assessment and development of personal skills

To conduct seminars, workshops and courses to aid faculty to improve their teaching and mentoring skills

**Objectives
of FDC**

To design and develop instructional materials
To conduct research related to pharmacy education and training

Faculty Development Program is organized to

Promote the development and advancement of Faculty of the Pharmacy through a program targeted to and tailored to the specific needs of faculty

Nurture and motivate junior faculty to become the next generation academic leaders

Support and encourage the retention of native faculty talent through opportunities and support to continuously build and expand professional skills

To disseminate teaching improvement courses to Pharmacy faculty through our facilitator-training programs in Pharmacy teaching.
